

>Description
 ILS-S Type Positioning Stage
 ILS-150S-S20 Type
 Unit = mm

>Positioning unit specification
 Product Weight = 2.2kg
 Load capacity : 150kgf Max
 Moving distance : ±20mm[0.787"]

Case = Aluminum+Alumite
 Fixing flange = Aluminum+Alumite
 Moving stage = SUS304+UHMWPE

(CAUTION) when returning back the moving plate back to its original position no load should applied on the moving plate
 Air specifications

- With stand pressure : 0.7MPa(7.14kgf/cm²)
 - Recommended air pressure : 0.4~0.6MPa (4.08~6.12kgf/cm²)
 - Operating temperature limit : 10℃~60℃
- Operating fluid : air or oil free inactive gas
